- Past performance may or may not be sustained in future and is not a guarantee of any future returns.

**How to Read:**

**Rolling returns:** It provides a series of overlapping returns over a specific period, offering a smoother, more comprehensive view of performance compared to discrete period returns. They help investors understand the consistency of returns and risk over various market cycles. (Higher the better).

**Drawdown:** It refers to how much a fund has fallen from its peak to its trough (Lowest Point) in the selected period. (Lower the better)

**Negative Observations:** It tells us how many times(%) the scheme has given negative observations in the selected period. (Lower the better)
